Virtual Screening and Discussion

on Zoom Video Conferencing

**Episode One:  
Kirby's House**

**Episode Two:  
Advantage Gained**

**Episode Three:  
Power of the Walk**

A New Story seeks to change inaccurate perceptions of people with intellectual and developmental disabilities. Through storytelling, this mini-series shows what is possible when people challenge the common idea that disability is something to fix. This is an independent project that showcases successes, achieved with vital support, as people design lives that bring them great personal fulfillment, in the face of discrimination and obstacles.
